

## 2014 ACNP Travel Award Program

The American College of Neuropsychopharmacology (ACNP) annually selects distinguished young scientists in the field of neuropsychopharmacology to be a part of our Travel Award program. These awards offer an opportunity to attend an outstanding scientific program in clinical and basic research on brain-behavior-drug interactions; become aware of the most recent, and often unpublished, advances in psychopharmacology; and meet and interact with internationally distinguished researchers and scientists.

In 2014, the ACNP Council and Education & Training Committee are encouraging applications from residents who have an active research interest.

Specific travel awardee benefits include:

- An ACNP member mentor for the meeting
- Registration for recipient and for accompanying other, \$100 ground transportation, up to five nights lodging, and round trip coach air fare to attend the ACNP meeting in Phoenix, Arizona December 7-11, 2014.
- A daily stipend of \$50 for meals and other annual meeting expenses incurred for up to six days
- The opportunity to present a poster at the annual meeting without an ACNP member sponsor.
- An automatic invitation to attend four future ACNP annual meetings with reduced registration fee, and the opportunity to present a poster at each meeting without the need of an ACNP member sponsor.
- The opportunity to be selected to make a research presentation to the meeting attendees.

## Applications & Deadlines
