Pathways to Therapy and Prevention

October 12-16, 2014
Copenhagen, Denmark

XXIIND WORLD CONGRESS OF PSYCHIATRIC GENETICS

Pathways to Therapy and Prevention

October 12-16, 2014

Copenhagen, Denmark

Dear Colleagues,

The 2014 World Congress of Psychiatric Genetics is taking place at an exciting time in the field of mental health research when an increasing number of genetic risk factors for psychiatric disorders are being identified, diagnostic boundaries and criteria are being re-evaluated and new ways to integrate the underlying biology with clinical diagnosis are being sought. The 2014 Congress aims to expand the discipline of psychiatric genetics to encompass all researchers whose work in neuroscience, neurobiology and genetics has future implications for developing new treatments for people with major mental illness. Please mark your calendars for October 12-16, 2014. We, along with our Scandinavian Program Committee members, look forward to meeting you in Copenhagen.

Yours Sincerely,

*Thomas Werge, Co-Chair
Professor, Director, Ph.D.
Institute of Biological Psychiatry
Mental Health Center, Sct. Hans
MHS - Capital Region of Denmark*

*Ole Mors, Co-Chair
Consultant, Prof., Ph.D.
Centre for Psychiatric Research
Aarhus University Hospital
Risskov, Denmark*

*Thomas G. Schulze, Co-Chair
Chief, Section on Psychiatric Genetics
Dept. of Psychiatry & Psychotherapy
University Medical Center
Georg-August-Universität
Göttingen, Germany*
